Applied Ergonomics 35 (2004) 619–622

APPLIED ERGONOMICS

www.elsevier.com/locate/apergo

Index to Volume 35 (2004), Nos 1–6, pages 1–622

Articles

A cost–benefit analysis methodology for assessing product adoption by older user populations *Sharit, J., Czaja, S.J., Perdomo, D. and Lee, C.C.* **81**

A direct observation instrument for assessment of nurses' patient transfer technique (DINO) *Johnsson, C., Kjellberg, K., Kjellberg, A. and Lagerström, M.* **591**

A kinematic, kinetic and electromyographic comparison of stooped sheep shearing techniques and shearing with a sheep manipulator *Marshall, R.N. and Burnett, A.F.* **137**

A participatory ergonomics intervention to reduce risk factors for low-back disorders in concrete laborers *Hess, J.A., Hecker, S., Weinstein, M. and*

Lunger, M. **427**

A test battery related to ergonomics of protective clothing *Havenith, G. and Heus, R.* **3**

Accuracy and validity of observational estimates of shoulder and elbow posture *Lowe, B.D.* **159**

An assessment system for rating scientific journals in the field of ergonomics and human factors *Dul, J. and Karwowski, W.* **301**

An ergonomic garment design for elderly Turkish men *Çivitci, Ş.* **243**

An observation instrument for the description and evaluation of patient transfer technique *Warming, S., Juul-Kristensen, B., Ebbehøj, N.E. and Schibye, B.* **603**

Arm work interferes with normal ventilation *Cerny, F.J. and Ucer, C.* **411**

Assessing floor slipperiness in fast-food restaurants in Taiwan using objective and subjective measures *Chang, W.-R., Li, K.W., Huang, Y.-H., Filiaggi, A. and Courtney, T.K.* **401**

Auto- and allo-confrontation as tools for reflective activities *Mollo, V. and Falzon, P.* **531**

Automobile seat comfort prediction: statistical model vs. artificial neural network *Kolich, M., Seal, N. and Taboun, S.* **275**

Bernardino Ramazzini's early observations of the link between musculoskeletal disorders and ergonomic factors *Franco, G. and Fusetti, L.* **67**

Body-based interfaces *Kim, G.J., Han, S.H., Yang, H. and Cho, C.* **263**

Classroom furniture dimensions and anthropometric measures in primary school *Panagiotopoulou, G., Christoulas, K., Papanckolaou, A. and Mandroukas, K.* **121**

Classroom posture and self-reported back and neck pain in schoolchildren *Murphy, S., Buckle, P. and Stubbs, D.* **113**

Cross-modal visual and vibrotactile tracking *van Erp, J.B.F. and Verschoor, M.H.* **105**

Determining the effects of eyewear fogging on visual task performance *Crebolder, J.M. and Sloan, R.B.* **371**

Development and evaluation of an affordable lift device to reduce musculo-skeletal injuries among home support workers *Heacock, H., Paris-Seeley, N., Tokuno, C., Frederking, S., Keane, B., Mattie, J., Kanigan, R. and Watzke, J.* **393**

Development of risk filter and risk assessment worksheets for HSE guidance—'Upper Limb Disorders in the Workplace' 2002 *Graves, R.J., Way, K., Riley, D., Lawton, C.and Morris, L.* **475**

Do work technique and musculoskeletal symptoms differ between men and women performing the same type of work tasks? *Dahlberg, R., Karlqvist, L., Bildt, C. and Nykvist, K.* **521**

Ecological performance of electrical consumer products: the influence of automation and information-based measures *Sauer, J., Wiese, B.S. and Rüttinger, B.* **37**

Editorial *Parsons, K. and Wilson, J.* **1**

Effects of load carriage, load position, and walking speed on energy cost of walking *Abe, D., Yanagawa, K. and Niihata, S.* **329**

Ergonomic intervention in carpet mending operation *Choobineh, A., Tosian, R., Alhamdi, Z. and Davarzanie, M.* **493**

Evaluation in industry of a draft code of practice for manual handling *Ashby, L., Tappin, D. and Bentley, T.* **293**

Evaluation of an intervention to reduce musculoskeletal hazards among fresh market vegetable growers *Chapman, L.J., Newenhouse, A.C., Meyer, R.H., Taveira, A.D., Karsh, B.-T., Ehlers, J.J. and Palermo, T.* **57**

Evaluation of in-vehicle HMI using occlusion techniques: experimental results and practical implications *Baumann, M., Keinath, A., Krems, J.F. and Bengler, K.* **197**

Factors influencing load–haul–dump operator line of sight in underground mining *Eger, T., Salmoni, A. and Whissell, R.* **93**

Forklift safety, traffic engineering and intelligent transport systems: a case study *Horberry, T., Larsson, T.J., Johnston, I. and Lambert, J.* **575**

Identifying factors of comfort in using hand tools *Kuijt-Evers, L.F.M., Groenesteijn, L., de Looze, M.P. and Vink, P.* **453**

Influence of inspiratory resistance on performance during graded exercise tests on a cycle ergometer *Heus, R., den Hartog, E.A., Kistemaker, L.J.A., van Dijk, W.J. and Swenker, G.* **583**

Influence of tyre inflation pressure on whole-body vibrations transmitted to the operator in a cut-to-length timber harvester *Sherwin, L.M., Owende, P.M.O., Kanali, C.L., Lyons, J. and Ward, S.M.* **253**

Information technology and road transport industry: how does IT affect the lorry driver? *de Croon, E.M., Kuijer, P.P.F.M., Broersen, J.P.J. and Frings-Dresen, M.H.W.* **313**

Introduction *Gelau, C., Krems, J.F.* **185**

Job stress management and ergonomic intervention for work-related upper extremity symptoms *Feuerstein, M., Nicholas, R.A., Huang, G.D., Dimberg, L., Ali, D. and Rogers, H.* **565**

Left-handed versus right-handed computer mouse use: effect on upper-extremity posture *Delisle, A., Imbeau, D., Santos, B., Plamondon, A. and Montpetit, Y.* **21**

Letter to the Editor *Warming, S. and Johnsson, C.* **615**

Load carriage for fun: a survey of New Zealand trampers, their activities and injuries *Lobb, B.* **541**

0003-6870/01/$ - see front matter
doi:10.1016/S0003-6870(03)00103-0

Measurement protocol of women's nude breasts using a 3D scanning technique *Lee, H.-Y., Hong, K. and Kim, E.A.* **353**

Microgravity simulation: physical and psychological workload evaluation tests in an underwater environment *Toscano, E., Fubini, E. and Gaia, E.* **383**

Musculoskeletal symptoms among commercial fishers in North Carolina *Lipscomb, H.J., Loomis, D., Anne McDonald, M., Kucera, K., Marshall, S. and Li, L.* **417**

Objective measurement of the start-motion quality of a forklift truck *Jang, H.-K. and Kook, D.-Y.* **467**

Occlusion as a measure for visual workload: an overview of TNO occlusion research in car driving *van der Horst, R.* **189**

On the highway measures of driver glance behavior with an example automobile navigation system *Chiang, D.P., Brooks, A.M. and Weir, D.H.* **215**

One set of pliers for more tasks in installation work: the effects on (dis)comfort and productivity *Groenesteijn, L., Eikhout, S.M. and Vink, P.* **485**

Perspectives on occlusion and requirements for validation *Lansdown, T.C., Burns, P.C. and Parkes, A.M.* **225**

Physical and psychosocial stress exposures in US dental schools: the need for expanded ergonomics training *Thornton, L.J., Stuart-Buttle, C., Wyszynski, T.C. and Wilson, E.R.* **153**

Processes, barriers, and outcomes described by ergonomics consultants in preventing work-related musculoskeletal disorders *Whysall, Z.J., Haslam, R.A. and Haslam, C.* **343**

Psychophysiological evaluation of simulator sickness evoked by a graphic simulator *Min, B.-C., Chung, S.-C., Min, Y.-K. and Sakamoto, K.* **549**

Representation of a human head with bi-cubic B-splines technique based on the laser scanning technique in 3D surface anthropometry *Zhang, B. and Molenbroek, J.F.M.* **459**

Representing older and disabled people in virtual user trials: data collection methods *Gyi, D.E., Sims, R.E., Porter, J.M., Marshall, R. and Case, K.* **443**

Searching information with a natural language dialogue system: a comparison of spoken vs. written modalities *Le Bigot, L., Jamet, E. and Rouet, J.-F.* **557**

Self-assessed and directly measured occupational physical activities—influence of musculoskeletal complaints, age and gender *Balogh, I., Ørbæk, P., Ohlsson, K., Nordander, C., Unge, J. Winkel, J., Hansson, G.-A. and the Malmö Shoulder/Neck Study Group* **49**

Structural stability and reliability of the Swedish occupational fatigue inventory among Chinese VDT workers *Leung, A.W.S., Chan, C.C.H. and He, J.* **233**

Task interruptability and duration as measures of visual distraction *Noy, Y.I., Lemoine, T.L., Klachan, C. and Burns, P.C.* **207**

*Technical note:*Biomechanical assessment of new hand-powered pruning shears *Roquelaure, Y., D'Espagnac, F., Delamarre, Y. and Penneau-Fontbonne, D.* **179**

*Technical note:*The comparisons of anthropometric characteristics among four peoples in East Asia *Lin, Y.-C., Wang, M.-J.J. and Wang, E.M.* **173**

The effect of fluid consumption on the forest workers' performance strategy *Wästerlund, D.S., Chaseling, J. and Burström, L.* **29**

The effect of forearm support on musculoskeletal discomfort during call centre work *Cook, C. and Burgess-Limerick, R.* **337**

The effect of shoe soling tread groove width on the coefficient of friction with different sole materials, floors, and contaminants *Li, K.W. and Chen, C.J.* **499**

The effect of upper extremity support on upper extremity posture and muscle activity during keyboard use *Cook, C., Burgess-Limerick, R. and Papalia, S.* **285**

The effect of using a laptopstation compared to using a standard laptop PC on the cervical spine torque, perceived strain and productivity *Berkhout, A.L., Hendriksson-Larsén, K. and Bongers, P.* **147**

The effect of wrist orthoses on forearm muscle activity *Johansson, L., Björing, G. and Hägg, G.M.* **129**

Understanding statistical power in the context of applied research *Baguley, T.* **73**

Universal product design involving elderly users: a participatory design model *Demirbilek, O. and Demirkan, H.* **361**

Validation of an instrument for patient handling assessment *Radovanovic, C.A.T. and Alexandre, N.M.C.* **321**

Vibration in operating heavy haul trucks in overburden mining *Kumar, S.* **509**
